However, you will have to pay PayPal fees when depositing via a debit or credit card.

Being an e-wallet, PayPal also allows you incredible speed when depositing funds into your betting account.

This is one of the biggest advantages of choosing PayPal as your banking option and it's reason the service is so popular for betting on sports in the US. That means if something goes wrong with a transaction, or the company runs into trouble with their business, you might not get your money back.

Like most e-wallets, PayPal acts as an intermediary between your bank account or credit cards, and the online sportsbook, allowing you to make a deposit or withdrawal without entering your banking information.
